His dedication to his sons was amazing. You could't find a better

His love for his mother, father and sisters and brother, and Brother in law could never change over the years even though they all lived in separate cities and countries. ### JOEY'S (SON) EULOGY AT HIS SERVICES

I'm not one for speeches but frankly

My father was a modest man who tried to live within his means

He wasn't one for these ornate ceremonies or fancy cars

he saw past the facade quite remarkably

He wouldn't want us to lament the loss of his life, but celebrate its legacy and in the spirit of learning he held in such high regard as a teacher, derive what lessons he left us from it

He savored the process evidently.

The process is comprised of the seemingly trivial, insignificant aspects of our lives that we often overlook or take for granted to the untrained eye at least.

It is the aggregation of our responses to these stimuli which ultimately, defines our experience and us

He knew this, and accordingly, carried out the most arguably mundane tasks conscientiously and gracefully, from delightfully volunteering to wipe my butt at the questionable age of eleven to cleaning up Chi Chi's messes, he relentlessly maintained an endearing ironic detachment which suffused from his character and brought joy to everyone in his company, never hindering, but enhancing tasks at hand and imbuing them with a distinctive, pleasant quality.

Every situation was memorable and substantive, life is ephemeral but colorful memories endure. The means justify the ends and his means were indisputably a blast as his family and peers can attest to.

We must strive to emulate him in this regard and conduct our affairs nobly, cherishing them and never dismissing them as peripheral or trifling. for it is the crux of our lives that is contained in them

Always perform tasks industriously and designate time for a good laugh about everything from my mismatched suit and pants for example to Gina's embarrassing India story that I'm sure she'd be glad to relate if asked later.

because eventually death awaits us all

No matter how you coax it.

To quote the timeless 2nd century stoic philosopher Marcus aurelius

"Death smiles at us all. All a man can do is smile back."
